Risk management as part of the system of internal control

7. The system of internal control incorporates Risk Management. This system encompasses a number of elements that together facilitate an effective and efficient operation, enabling Ulster Badminton to respond to a variety of operational, financial, and commercial risks. These elements include:

a. Policies and procedures.

Attached to fundamental risks are a series of policies that underpin the internal control process. The policies are set by the Council and implemented and communicated to staff. Written procedures support the policies where appropriate.

b. Reporting.

Comprehensive reporting is designed to monitor key risks and their controls. Decisions to rectify problems are made at regular meetings of the Council and Standing Committees.

c. Business planning and budgeting.

The business planning and budgeting process is used to set objectives, agree action plans, and allocate resources. Progress towards meeting business plan objectives is monitored regularly.

d. Self Assurance Process

The annual self assurance process is the mechanism by which we assess whether we are fit to receive public funds. The process assists in providing assurance that our structures, plans, policies and procedures are constantly monitored and improved so as to achieve our objectives and manage our funds effectively.

e. External audits and Third party reports.

External reviews by funding bodies provides feedback to the Council on the operation of the internal controls. Annual accounts are subject to an Independent Examination.

f. Risk Management Process.

Ulster Badminton operates a Risk Management process/framework as follows:

- A review/appraisal of the previous year's risk management report
- A 'risk identification' exercise for the year ahead
- Evaluation of identified risks using risk assessments
- Manage risks through application of risk management techniques

- Record and monitor risks using risk registers
- Assigning responsibility for risks to appropriate personnel.

Risk identification is not an annual process. The Council, Management committee, Standing Committee and Staff members are encouraged to report and update risk registers and carry out assessments throughout the year.
